Part 1 — The Wellness Pivot (current master ranking)

The Wellness Pivot — General Wellness / Biohacking / Longevity Names

Updated: August 17, 2026 · Supersedes the peptide-centric Top 30 for the new brand direction

The brief changed: **step away from "peptide" as the brand anchor** and name a broader **wellness + biohacking + longevity** platform. This round generated **1,371 new candidates** built from Well/Wellness/Health/Vital/Life/Span/Longevity/Ageless/Youth/Biohack modifiers crossed with focus words (protocol, stack, dose, method, lab, code, club, collective, haus, society, OS, HQ ...), plus coined names and evocative one-words.

Strategic note this round confirms: the investor-lens finding from the earlier a16z-style screen — *the platform name should not contain "peptide"* — is now the operating thesis. Earlier non-peptide survivors (**Spancell, Encore Cell, Reeflongevity**) carry over into this ranking on merit.

Scorecard

Bucket	Count
Candidates checked (.com)	1,371
DNS-open leads	68
Taken	1,255
Unverified (resolver rate-limit; recheck at registrar)	48

Controls (google.com , wellness.com , health.com) all correctly read *taken*. As always: "**available**" = **DNS-open lead** (no NS delegation). A registered-but-undelegated domain looks identical — confirm at a registrar before celebrating, the MalibuPeptide lesson.

The category is brutally crowded. 92% of natural wellness combos are gone — every well- / health- two-worder you'd guess (wellstack, welltheory, wellhaus, healthlab, vitallife, purewellness, thrivehealth, zenwellness ...) is taken. What's left open clusters in five ownable seams: **-dose**, **-span**, **-haus/guild/society**, **telo-**, and craftsman coinages (**-smith**).

Top 25 — Wellness/Longevity direction

Ranked for brand quality + ownability at hand-reg price. ⚠ = clear this collision first. ◇ = not yet run through the adversarial agent screen (DNS + judgment only).

#	Name	Domain	Why
1	Halo Lab ◇ ⚠	halolab.com	The find of the round. Two short words, radio-perfect, premium glow ("halo effect") + science ("lab"). ⚠ Must clear: Halo Collective/Halo Labs (cannabis) and Halo Labs (lab instruments) — different classes, but do the USPTO knockout before building.
2	Spancell	spancell.com	Carryover champion — cellular healthspan in one coined word; the only unqualified KEEP from the brutal screens. Fits the wellness pivot even better than the peptide frame.
3	Span Society ◇	spansociety.com	Members-club longevity brand. "Span" = healthspan, ownable as a house root (see the whole open span-family below).
4	Agesmith ◇	agesmith.com	Coined craftsman name — "a smith who works on age." Distinctive, spellable, zero baggage found at DNS level.
5	Youthsmith ◇	youthsmith.com	Sister to Agesmith, warmer promise. Pick one; park the other.
6	Telomethod ◇	telomethod.com	Telomere science without saying "anti-aging." The open telo- family (dose/haus/collective/longevity) lets you own the prefix.
7	Ember Protocol ◇	emberprotocol.com	Warmth + rigor; "protocol" is the native biohacker word. emberlongevity.com also open as a companion.
8	Nova OS ◇ ⚠	novaos.com	"The operating system for your biology." Platform-scale name. ⚠ OS-style names collide with software marks — knockout search needed.
9	Coredose	coredose.com	Carryover; clean supplement-commerce name, now better-fitted to a general stack/dose store than a peptide shop.
10	Ion Method ◇	ionmethod.com	Short, techy, clinic-grade.
11	Encore Cell	encorecell.com	Carryover — second-act cellular health; strong for 40+ positioning.
12	Agelessstack	agelessstack.com	Confirmed open again this round. The literal biohacking content-brand.
13	Vigor Collective ◇	vigorcollective.com	Men's-wellness lane; community-first.
14	Reeflongevity	reeflongevity.com	Carryover; calm, blue-zone imagery.
15	Solstice Stack ◇	solsticestack.com	Prettiest of the stack names; solsticedose/solsticespan open too.
16	Renewhaus ◇	renewhaus.com	Euro-spa meets clinic; agelessshaus/dailyhaus/telohaus open as siblings.
17	Meridian Span ◇	meridianspan.com	Medical-adjacent gravitas (meridian = peak).
18	Morehealthspan ◇	morehealthspan.com	Says the entire value prop in one breath; descriptive but honest.
19	Youthdose ◇	youthdose.com	Punchy commerce name; agedose.com open for the clinical twin.
20	Rewindwell ◇ ⚠	rewindwell.com	"Rewind" tested well with you — this is its wellness-safe form. ⚠ Rewind collisions found in the earlier deep scan still apply at the margin.
21	Biohackwell ◇	biohackwell.com	On-the-nose SEO name; better as a content property than the master brand.
22	Upgrade Longevity ◇ ⚠	upgradelongevity.com	Biohacker-native verb. ⚠ Adjacent to Dave Asprey's "Upgrade Labs" — clear carefully or keep as campaign name.
23	Restorespan ◇	restorespan.com	Therapeutic tone; rewindspan.com open too.

#	Name	Domain	Why
24	Optimalworks ◇	optimalworks.com	Safe, corporate, B2B-friendly.
25	Longevity Form ◇	longevityform.com	Editorial/clinic hybrid; longevityfront/longevitydial open as stablemates.

If I had to buy three today: halolab.com + spancell.com + spansociety.com (~\$36 total) — a hero brand candidate, the screened-clean coined name, and the membership-club play, before any of them get sniped.

All 68 DNS-open leads, by family

The -dose seam (16): agedose, agelessdose, arcdose, ascenddose, atlasdose, axisdose, coredose, emberdose, evolvedose, helixdose, lumendose, meridiandose, renewdose, restoredose, revivedose, rewinddose, solsticedose, spandose, summitdose, telodose, upgradedose, vigordose, youthdose *(21 with the ranked ones)*

The span- / -span seam (13): agelessspan, axisspan, meridianspan, restorespan, rewindspan, solsticespan, spandepth, spandose, spanguild, spanmethod, spansmith, spansociety, spanstate, spanunion, upgradspan

The haus/guild/society seam (8): agelesshaus, dailyhaus, renewhaus, telohaus, spanguild, spansociety, spanunion, ageguild, agedepth, spandepth, vitaldepth

The telo- family (6): telocollective, telodose, telohaus, telolongevity, telomethod

Longevity descriptives (6): emberlongevity, longevitydial, longevityform, longevityfront, morehealthspan, telolongevity, upgradelongevity, wholelongevity*(unverified)*

Craftsman coinages (3): agesmith, spansmith, youthsmith, youthframe

Wellness verbs & misc (rest): apogeewell, biohackwell, rewindwell, emberprotocol, halolab, ionmethod, novaos, optimalworks, agelessstack, solsticestack, vigorcollective

(Names appear once in the master CSV; family lists above overlap where a name fits two seams.)

Unverified — recheck at a registrar (48)

The resolver pool rate-limited near the end of the sweep; these returned SERVFAIL, not real answers. Most are almost certainly taken (dailydose, biolabs, zenlife, optimalhealth, longevitylabs, peaklabs, meliora, novalife ...) but a few are genuinely worth a manual check:

agelesshq · ageprotocol · archaus · atlaslabs · axislife · biofront · biohq · biolabs · biopath · biotheory · dailydose · dailyhq · emberhealth · fullstackwellness · haloworks · healthform · healthhouse · ionhq · lifebank · longevitydept · longevitylabs · longevitystate · lumenhealth · meliora · mitolife · novalife · optimalhealth · peaklabs · primallife · renewclub · restorelife · soldose · spanclub · terrastack · thrivecode · thrivemethod · upgradelife · upgradestack · vitalhaus · wellnessbank · wellnesslabs · wellnessspan · wholelongevity · wholeos · youthmode · zendose · zenlife · zenstack

Priority manual checks: vitalhaus, archaus, spanclub, youthmode, thrivemethod, fullstackwellness, longevitystate, healthhouse.

What's definitively gone (so you stop guessing)

Every one of these natural picks is registered: wellstack, welltheory, wellhaus, wellcode, wellmethod, wellprotocol, welldose, wellworks, wellclub, wellcollective, healthlab(s), healthstack, healthprotocol, healthcode, healthos, vitallife, vitalstack, vitalprotocol, purewellness, truelwellness, primewellness, peakwellness, thrivewellness, zenwellness, everwell, agewell, healthspan (+hq/club/labs), lifespanlab(s), biohack, biohacker(s), biohacking, humanupgrade, betterhuman, peakhuman, halcyon, zenith, apogee, verdant, eudaimonia — all taken. The aftermarket is the only route to any of them.

Method

Same as all prior rounds: NS query per name against 1.1.1.1 / 8.8.8.8 / 9.9.9.9 (fallback 9.9.9.9 / 208.67.222.222); an authoritative **NXDOMAIN** = **DNS-open lead**; SERVFAIL/timeout = unverified, never guessed. Availability shifts daily — confirm at purchase; run a USPTO knockout (Class 5 supplements, Class 44 health services) before building on any name.

The "Lord" Expansion — LordPeptide / PeptideLord & Every Lord-Combo

Updated: September 2, 2026 · Companion to `wellness-pivot.md` (the current master ranking)

Requested expansion: names that incorporate **Lord** — LordPeptide, PeptideLord, and the full cross of `lord + word / word + lord` over the peptide **and** wellness/longevity vocabularies. **133 candidates checked** (`.com` , NS query; NXDOMAIN = DNS-open lead).

The headline first

Both requested names are TAKEN: `lordpeptide.com` ❌ and `peptidelord.com` ❌ — along with nearly every short, obvious lord-combo (`peplord` , `lordwellness` , `healthlord` , `lordstack/stacklord` , `lordlab` , `biolord` , `lordlife/lifelord` , gymlord -style fitness pairs, `lordclub` , `lordhaus` , `lordhq` — all registered).

But the seam is far from mined out: 79 of 133 combos are DNS-open, including several that keep the exact "Lord of peptides" idea alive:

Scorecard

Bucket	Count
Candidates checked (<code>.com</code>)	133
DNS-open leads	79
Taken	52
Unverified (recheck at registrar)	2 (<code>lordhealth</code> , <code>zenlord</code>)

Controls (`google.com` , `reddit.com` , `wellness.com`) all correctly read *taken*.

Top 12 Lord picks

#	Name	Domain	Why
1	Lord Pep	<code>lordpep.com</code>	The best swap for the taken LordPeptide — 7 letters, punchy, styles as LORDPEP; pairs with the earlier open <code>rallypep.com</code> .
2	The Peptide Lord	<code>thepeptidelord.com</code>	Says the requested name verbatim, just with "The" — reads like a persona/founder brand, strong for content + commerce.
3	Lord of Peptides	<code>lordofpeptides.com</code>	The full title. Grand, meme-aware, memorable; great for a YouTube/newsletter-led brand.
4	Peptide Lords	<code>peptidelords.com</code>	Plural of the taken singular — community/collective framing ("join the Peptide Lords").

#	Name	Domain	Why
5	Gains Lord	gainslord.com	Best fitness-lane find (lordgains.com open too — buy both directions).
6	Wellness Lord	wellnesslord.com	The wellness-pivot version; singular AND plural (wellnesslords.com) open while lordwellness is taken.
7	Biohack Lord	biohacklord.com	On-brand for the biohacking direction; lordbiohack / lordbiohacker open as companions.
8	Lord Longevity	lordlongevity.com	Alliterative, title-like; the reverse (longevitylord) is taken — grab this direction.
9	Youth Lord	youthlord.com	Short, provocative anti-aging brand.
10	Dose Lord	doselord.com	Ties into the open -dose seam from the wellness round (lorddose.com open too).
11	Span Lord	spanlord.com	Healthspan + the span- house root; both directions open (lordspan.com).
12	Lord Protocol	lordprotocol.com	Biohacker-native "protocol" + authority; protocollord.com open too.

If the Lord angle is the brand: buy thepeptidelord.com + lordofpeptides.com + peptidelords.com (~\$36) — together they fence off the entire "peptide lord" idea even though the two exact singulars are gone. Add lordpep.com as the short handle.

All 79 DNS-open Lord leads

Peptide lane (7): lordpep, lordpeptech, peptechlord, lordofpeptides, thepeptidelord, peptidelords, peptideslord

Lord + wellness/longevity (36): lordageless, lordbiohack, lordbiohacker, lordcells, lordcollective, lorddose, lordfast, lordfocus, lordgains, lordhealthspan, lordhormone, lordketo, lordlifespan, lordlongevity, lordmethod, lordnad, lordprotocol, lordpure, lordrecovery, lordrenew, lordrestore, lordrewind, lordserum, lordsleep, lordspan, lordsupplement, lordsupps, lordtelo, lordthrive, lordupgrade, lordvital, lordvitality, lordofgains, lordofhealth, lordoflongevity, lordofyouth

Word + lord (36): agelesslord, agelord, biohacklord, celllord, cellslord, collectivelord, doselord, fastlord, focuslord, gainslord, hauslord, healthspanlord, hormonelord, hqlord, ketolord, lablord, lifespanlord, methodlord, nadlord, protocollord, renewlord, restorelord, rewindlord, serumlord, societylord, spanlord, supplementlord, suppslord, telolord, thrivelord, upgradelord, vitalitylord, vitallord, wellnesslord, wellnesslords, youthlord

What's taken (so you stop guessing)

lordpeptide · peptidelord · peplord · lordwellness · healthlord · lordwell · welllord · lordstack · stacklord · lordlab · lablord · biolord · lordbio · lordlife · lifelord · lordyouth · lordcell · lordclub · lordhaus · lordhouse · lordsociety · lordhq · lordage · lordcode · codelord · lordzen · lordpeak · peaklord · lordprime · primelord · lordapex · apexlord · lordcore · corelord · lordmuscle · musclelord · lordfitness · fitnesslord · lordfit · fitlord · lordenergy · energylord · sleeplord · longevitylord · purelord — plus the rest of the 52; the CSV carries the authoritative per-name status.

Honest caveats

- "**Available**" = **DNS-open lead** (no NS delegation). A registered-but-undelegated domain looks identical — confirm at a registrar before buying (the MalibuPeptide lesson).
- "Lord" brands carry a tone risk: they read gaming/meme-culture ("Gains Lord") more than medical. Great for a personality-led biohacking brand; wrong for the RUO/clinical lane.
- Trademark note: LOTR-adjacent phrasing ("Lord of the ...") is fine generically, but avoid any Tolkien trade dress. Run the usual USPTO knockout (Cl. 5/44) before building.

Method

Same as all prior rounds: `NS` query per name against 1.1.1.1 / 8.8.8.8 / 9.9.9.9 (fallback 9.9.9.9 / 208.67.222.222), 4 attempts; authoritative **NXDOMAIN** = **DNS-open**; SERVFAIL/timeout = unverified, never guessed.

Part 3 — NEW: The “Amino” Expansion

The "Amino" Expansion — Amino Crossed With Everything

Updated: September 2, 2026 · Companion to `wellness-pivot.md` and `lord-names.md`

Requested expansion: add **amino** to the word list. **129 candidates checked** — `amino + word` and `word + amino` over the same peptide + wellness/longevity vocabulary, plus the Lord crossover.

Scorecard

Bucket	Count
Candidates checked (.com)	129
DNS-open leads	56
Taken	69
Unverified (recheck at registrar)	4 (<code>aminoage</code> , <code>aminovitality</code> , <code>aminoworks</code> , <code>vitalamino</code>)

Controls (`google.com` , `amino.com` , `aminoacids.com`) all correctly read *taken*.

The shape of this seam is the mirror of everything else. The supplement industry has strip-mined the `amino-first` direction — aminopeptide, aminopep, aminolab(s), aminostack, aminodose, aminohealth, aminolife, aminowell(ness), aminocell, aminoclub, aminohq, and the fitness pairs (aminofit, aminomuscle — though `aminogains` survived, see below) are almost all registered. But the **word + amino** direction is **wide open**: healthamino, lifeamino, spanamino, stackamino, doseamino, methodamino, houseamino...

Top 10 Amino picks

#	Name	Domain	Why
1	Lord Amino	lordamino.com	The Lord × Amino crossover — and it's open while <code>aminolord.com</code> is taken. Pairs perfectly with the Lord shortlist.
2	Amino Smith	aminosmith.com	Joins the open -smith craftsman family (agesmith, youthsmith, spansmith) — you could own "the smiths" as a house style.
3	Health Amino	healthamino.com	Cleanest descriptive two-worder left in the whole amino space.
4	Amino Gains	aminogains.com	Fitness-lane standout (<code>gainsamino.com</code> open too — buy both directions).
5	The Amino Lord	theaminolord.com	Persona-brand twin of <code>thepeptidelord.com</code> — grab as a set.
6	Amino Guild	aminoguild.com	Members-club framing; sits in the open haus/guild/society seam.
7	Amino Youth	aminoyouth.com	Anti-aging + supplement in one; <code>aminoageless</code> / <code>ageamino</code> open as siblings.

#	Name	Domain	Why
8	Span Amino	spanamino.com	Healthspan tie-in; joins the span- house root.
9	Amino Supps	aminosupps.com	The literal commerce name — SEO workhorse, not a hero brand.
10	Dose Amino	doseamino.com	Extends the open -dose seam sideways.

Set play: lordamino.com + theaminolord.com + aminolords.com + lordofaminos.com (~\$48) fences the Amino-Lord idea completely, mirroring the Peptide-Lord set.

All 56 DNS-open Amino leads

amino + word (26): aminoageless, aminodept, aminofront, aminogains, aminoguild, aminohealthspan, aminolords, aminorenew, aminorewind, aminoshaus, aminosmith, aminosupps, aminothrive, aminounion, aminoyouth, ageamino, agelessamino, theaminolord, lordofaminos — plus the unverified four below

word + amino (30): biohackamino, cellsamino, collectiveamino, deptamino, doseamino, energyamino, fitnessamino, focusamino, formamino, frontamino, gainsamino, guildamino, hausamino, healthamino, healthspanamino, houseamino, hqamino, lifeamino, lordamino, methodamino, muscleamino, recoveryamino, renewamino, restoreamino, rewindamino, serumamino, smithamino, societyamino, spanamino, stackamino, stateamino, suppsamino, theoryamino, unionamino, upgradeamino, worksamino, zenamino

What's definitively gone

aminopeptide · peptideamino · amino pep · pepamino · aminolord · aminowellness · wellnessamino · aminostack(s) · aminodose · aminolab(s) · aminohaus · aminoclub · aminohealth · aminolife · aminolongevity · longevityamino · aminospan · aminocell(s) · aminowell · wellamino · aminomethod · aminoprotocol · aminocode · aminothory · aminoform · aminostate · aminoco · aminoos · dailyamino · aminosociety · aminovital · youthamino · aminohq · aminohouse · aminoserum · aminorecovery · aminofocus · aminoenergy · aminomuscle · aminofit · aminofitness · aminopeak · aminoprime · aminopure · aminocore · aminoapex · aminozen · aminorestore · aminoupgrade · aminobiohack — the CSV carries the authoritative per-name status.

Honest caveats

- **"Available" = DNS-open lead** (no NS delegation); confirm at a registrar before buying.
- "Amino" is a crowded supplement-commodity signal (BCAA-era branding). It positions you as a supplement shop, not a longevity platform — best as a product-line or SEO property under a broader master brand (Spancell, Halo Lab), not as the master brand itself.
- Usual USPTO knockout (Cl. 5 supplements / Cl. 44 health services) before building.

Method

Same as all prior rounds: NS query per name against 1.1.1.1 / 8.8.8.8 / 9.9.9.9 (fallback 9.9.9.9 / 208.67.222.222), 4 attempts; authoritative NXDOMAIN = **DNS-open**; SERVFAIL/timeout = unverified, never guessed.

Top 30 — Ranking v4 (Rally-First)

⚠ **DIRECTION PIVOT (Aug 17, 2026):** the brand brief has moved from peptide-first to a **general wellness / biohacking / longevity** platform. The current ranking for that direction is in **wellness-pivot.md** (Halo Lab #1 · Spancell #2 · Span Society #3). This v4 list remains valid history for the peptide-branded lane.

Updated: August 16, 2026 · **6,708 names checked** · **2,065 leads** · **six adversarial screens**

This ranking incorporates the founder's directive: **Rally Peptide leads**. The deep scan graded it **C- (CROWDED)** — the only survivor of the Rally/Rewind/Shred trio — and the caveats are printed with it, not hidden. Spancell remains the analyst's pick at #2. Names marked ⚠ carry a known near-collision; names marked ◇ have not been through the adversarial agent screen.

Tier 1 — The picks

#	Name	Domain	Rationale & caveats
1	Rally Peptide 🚩	rallypeptide.com	Founder's pick — validated as viable. No peptide company uses "Rally"; Rally Health (UnitedHealth) is sunsetting Apr 2026 — favorable timing. Energetic, positive, memorable. Required before building: TESS clearance on RALLY in Cl. 5/44 (Rally® hangover + AEP Rally & Recover® exist), WHOIS on rallypeptides.com (plural is registered/parked — try to acquire), and watch "Pep Rally" in the peptide channel. Companion handle rallypep.com is open — grab both.
2	Spancell	spancell.com	Analyst's pick — the only unqualified KEEP of the venture screen: "lifespan + cell," clearable, platform-scale.
3	Encore Cell	encorecell.com	Best narrative ("your second act"); conditional on an Encore-crowd knockout.
4	Houndcell	houndcell.com	Dog-line winner; clean screen.
5	Reeflongevity	reeflongevity.com	Clean, longevity-literal.
6	Pupcell	pupcell.com	USPTO-clear; most memorable dog name.

Tier 2 — Scientific/RUO lane (the "Peptide Sciences" look)

#	Name	Domain	Note
7	Sterling Peptides	sterlingpeptides.com	Cleanest Paramount-style premium name; verified on all 5 TLDs.
8	Criterion Peptides ◇	criterionpeptides.com	"The scientific benchmark."
9	Boundless Biotech ◇	boundlessbiotech.com	The open Limitless Biotech analogue.

#	Name	Domain	Note
10	Sovereign Bioscience ◇	sovereignbioscience.com	Authority + science.
11	Peptide Medica ◇	peptidemedica.com	The most medical-sounding lead.
12	Clinipeptides ◇	clinipeptides.com	Clinical-compound sound.
13	Exemplar Peptides ◇	exemplarpeptides.com	Reference-grade cue.
14	Probiotide ⚠ ◇	probiotide.com	Protide-Health-style; clear the near-name first.

Tier 3 — Brand bench

#	Name	Domain	Note
15	Peptovance	peptovance.com	Best coined survivor.
16	Coredose	coredose.com	Clearable; "dose" SKU knock.
17	Rallypep ◇	rallypep.com	Rally companion/short handle.
18	The Age Protocol ◇	theageprotocol.com	Best protocol find — reads like a program, not a pill.
19	Puprenew	puprenew.com	Dog bench; style as PupRenew.
20	Montauk Peptide	montaukpeptide.com	Best place-compound.
21	Reef Peptide	reefpeptide.com	Short, punchy.
22	Ridge Peptide	ridgepeptide.com	Distinctive; Ridge Wallet noted.
23	Peptaronix	peptaronix.com	Coined biotech; TESS first.
24	Peptidyne Bio / Therapeutics	peptidynebio.com	Coined root, biotech dress.
25	Athletic Peptide	athleticpeptide.com	Clean fitness lane.

Tier 4 — Stack/dose/combo finds & defensive

#	Name	Domain	Note
26	Cytestack ⚠ ◇	cytestack.com	Best new stack find ("cell stack"); clear Cyte Therapeutics.
27	Agelesstack ◇	agelesstack.com	Ageless + stack portmanteau; single-s styling required.
28	Dosepep / Fuelpep ◇	dosepep.com	Dose-lane scraps; short and legible.
29	Harbor Peptide	harborpeptide.com	First-round survivor; Harbor crowd noted.
30	Alder Peptide	alderpeptide.com	Defensive registration only.

Combo reality check (asked & answered)

WellStack, ProDose, DoseStack, PepStack, PepDose, PureDose, BioPeptide — all TAKEN. The deeper stack/protocol/dose dig surfaced only the Tier-4 names above plus keendose, peakedstack, booststack, raldose. The stack/dose vein is confirmed strip-mined.

All "available" = DNS-open lead; registrar-verify before buying, USPTO knockout before building. ◇ names have not been agent-screened — say the word to run the brutal screen on any of them.

The a16z Verdict — What Brand & Domain Would I Actually Invest In?

Framed as: a Managing Director evaluating a peptide/longevity company at seed/Series A.

The uncomfortable truth this scan surfaced

I ran three fresh scans through the investor lens — iconic single words, elegant coinages, and `[word]stack.com`. The result was decisive:

- **Iconic single-word .com s: 181 of 186 taken.** Aevum, Vivos, Elysia, Renova, Lumina, Vitera, Fount, Vireo — all gone.
- **Elegant coinages: 83 of 92 taken.** The only "available" ones were typo artifacts.
- **[word]Stack.com : every strong one taken** — including your own examples **LifeStack**, **BioStack**, **AlphaStack**, plus Vital/Prime/Peak/Health/Gene/Power/Iron/Cell/Nova/Core/Pure-Stack.

Conclusion: at hand-register prices, an *iconic* brand `.com` does not exist. This is the single most important finding of the whole project.

How I actually evaluate a brand as an investor

The brands that won this category prove one pattern: **none put the molecule in the name.** - **Function Health** (labs) — benefit, not mechanism; ~\$2.5B. - **Superpower** (labs) — aspirational platform. - **Levels** (glucose) — one clean word. - **Oura** (ring), **Ro**, **Hims** — short/coined, expanded far beyond the first product.

An investable brand is: (1) **not category-locked** (peptides are the *wedge*, not the identity), (2) **memorable in one hearing**, (3) **credible not grey-market**, (4) **an exact-match one-word .com**, (5) **timeless in a logo**.

By that bar, **no [word]peptide.com should ever be the company brand** — Alder included. It was topping my list only because I was optimizing trademark-whitespace, not brand equity. That was the wrong lens. Corrected.

What I would invest in

My recommendation is a strategy, not a leftover domain:

1. The name must NOT contain "peptide."

Peptides are the launch product; the brand should be a **longevity / human-optimization platform** so it survives the science evolving (GLP-1s, gene therapy, whatever's next). Name for the *outcome*.

2. Treat the domain as an acquisition, not a registration.

The \$15k ceiling buys a *decent* aftermarket name but not an elite one-word `.com` (those run \$30k–\$500k). For a venture-backed brand this is the cheapest equity you'll ever buy — **budget \$50–150k and acquire the exact-match `.com`**. Prime acquisition targets (all taken, all brokerable): **fount.com, vireo.com, aevum.com, elysian.com, fountain.com, renew.com, thrive.com.**

3. If self-funding under \$15k, the one available name I'd actually build on:

Spancell — spancell.com (available lead)

"**Lifespan + cell.**" The only name across ~90 individually screened finalists to survive the venture-grade adversarial screen as an **unqualified KEEP**: it means something, it's two crisp syllables, science-coded, platform-scale, and the trademark is likely clearable in Class 5 (nearest collision is a Japanese industrial foaming agent in an unrelated class). Grab `spancell.ai` as the tech-halo backup.

Retraction: an earlier version of this verdict crowned **Vitanova**. The deep screen killed it — a live USPTO registration in the exact supplements class, an operating NMN-longevity brand at `getvitanova.com`, an Rx product in India, a fertility chain, and a public shell all share the name. It was the most-collided name on the list, and the re-screen is what caught it.

Runners-up (available leads), ranked by investability: 1. **Encore Cell** (`encorecell.com`) — the best narrative ("second act of life"); conditional on a Cl. 5/10/44 knockout. 2. **Peptovance** (`peptovance.com`) — best coined; only knock is the "pep" tell. 3. **Reeflongevity** (`reeflongevity.com`) — clean and literal, but longer.

The honest MD bottom line

If this were my investment, I would **not** let the founder ship a `[word]peptide.com`. I'd fund a **domain-acquisition line item** and buy a one-word `.com`, because in DTC health the brand *is* the moat and underspending on it is the classic seed-stage mistake. If capital is truly constrained, **Spancell** is the one name here I'd greenlight without wincing — and the Vitanova retraction above is exactly why every finalist gets a deep screen before money moves.

Deep Scan — Rally Peptide · Rewind Peptide · Shred Peptide

Added: August 16, 2026 · ~14 targeted web searches + domain-variant landscape scan

Name	Direct peptide collision?	Class-5 TM blockers	Verdict	Grade
Rally Peptide	No exact; "Pep Rally" near-name in peptides	Rally® (hangover supplement), AEP Rally & Recover®	CROWDED	C-
Rewind Peptide	Yes — two peptide clinics + 4 peptide products	REWIND (Rewind Holdings — dietary supplements)	FATAL	F
Shred Peptide	Yes — 4+ "Shred" research-peptide SKUs	SHREDZ family (incl. SHREDZ ANTI AGING), JAVA SHRED	FATAL / CROWDED	D-

1. Rally Peptide — CROWDED (C-) · the only survivor

- **No peptide company named "Rally Peptides" found** — but **rallypeptides.com (plural) is REGISTERED** (has nameservers; parked/dormant — our DNS scan corrects the search-index guess). Someone holds the exact-match plural.
- **Rally Health (UnitedHealth/Optum) is sunseting** — RallyHealth.com retires April 30, 2026 into OptumEngage. Favorable timing, but UnitedHealth-scale registrants keep marks alive; assume residual enforcement.
- **Class 5 is occupied:** Rally® hangover-recovery supplement (rallynutrition.store, ® claimed), AEP Rally & Recover® (® claimed), LTH Rally Amino Recovery (Life Time), Tiered Nutrition RALLY™, Rally Patch. Plus **"Pep Rally"** — a peptide protocol-tracking app *and* a peptide directory — near-names in the exact channel. RALLY has TTAB fight history in wellness (RedBrick Health opposition).
- **Read:** usable with eyes open — likely coexistable but a cluttered register, possible office-action citations, weak enforceability, and the plural .com in someone else's hands.

2. Rewind Peptide — FATAL (F) · confirmed and worse than the first screen

- **Rewind Anti-Aging of Miami** (est. 2015) — a peptide-therapy clinic aggressively SEO'd on "rewind + peptide" (BPC-157, TB-500, CJC/Ipamorelin, semaglutide, retatrutide, NAD+). Head-on collision: same word, same products, entrenched search results.
- **Rewind Wellness & Aesthetics** (Phoenix) — second peptide clinic on the word.
- Peptide/collagen products already named Rewind: **The Rewind Peptide Cream, LTH Rewind Collagen Elixir, Purovitalis Rewind Liquid Collagen, Parallel Health Daily Rewind Duo (peptide cream), Rewind Urolithin A** longevity softgels. Skincare near-names: Stratia Rewind peptide serum, Neude Rewind (ELLE award), skinbetter BioRewind supplement, Curology BE KIND REWIND, MONAT REWIND.
- **Blocking mark:** REWIND — Rewind Holdings, LLC, covering dietary & nutritional supplements (Class 5).
- **Read:** confusion is guaranteed, USPTO refusal likely, and the SEO is unwinnable even though rewindpeptide(s).com are open. Do not proceed.

3. Shred Peptide — FATAL commercially / CROWDED legally (D-)

- **Research-peptide vendors already sell "Shred"-named peptide products:** Serendipity SUPER SHRED, PSPeptides Shred Express Bundle (AOD-9604/Tesamorelin/Retatrutide), Dope Peptides Super Shred, Huma Peptide SHRED AM-PM, USA Peptide Science SUPER Shredder — the phrase "shred peptides" is pre-associated with grey-market vendors.
- **shredpeptides.com (plural) is REGISTERED** (nameservers present — our DNS scan corrects the search-index guess); singular is open but buys nothing.
- **Shredz is alive:** shredz.com still sells, and Shredz Supplements LLC holds a 2014 mark family — SHREDZ, SHREDZ CREATINE/PROTEIN/TESTOSTERONE/PREWORKOUT and notably **SHREDZ ANTI AGING** — one letter from your name, with litigation history. Fat-burner SKUs named exactly "Shred" from 8+ brands (Core, Cellucor Super Shred, 5% Shred Time®, Musashi, HTLT G Shred...); SHRED fitness app owns broad mindshare; V Shred looms.
- **Read:** "shred" + "peptide" is generic-on-generic — near-zero protectable matter, an unpleasant trademark neighbor, and exactly the grey-market shelf you want to avoid.

Bottom line

Rewind and Shred are dead — both have competitors selling peptides under the same word today, plus Class-5 trademark blockers. **Rally is the only viable one of the three (C-):** no exact peptide collision and Rally Health is exiting, but the supplement register is cluttered, "Pep Rally" sits in your exact channel, and someone already owns rallypeptides.com. If Rally tempts you: WHOIS rallypeptides.com to see who holds it, and run a formal TESS clearance on RALLY in Classes 5/44 before spending anything.

RUO-Style Scientific & Medical Names

Added: August 16, 2026 · Mimicking the research-vendor naming conventions (ProHealth · Paramount Peptides · Peptide Sciences · Limitless Biotech)

167 candidates in four RUO patterns → **43 available leads**. The curated 20 below sound scientific/medical and are all DNS-open (verify at registrar; ⚠ = known near-collision to clear first).

The 20 scientific/medical-sounding picks

#	Name	Pattern	Note
1	Sterling Peptides — sterlingpeptides.com	Premium + Peptides	Verified open on all 5 TLDs earlier; the cleanest "Paramount-style" name.
2	Criterion Peptides — criterionpeptides.com	Standard/authority	"The criterion" = the scientific benchmark.
3	Boundless Biotech — boundlessbiotech.com	Limitless-style	The direct Limitless Biotech analogue that's open (+ boundlessbioscience.com).
4	Sovereign Bioscience — sovereignbioscience.com	Premium + Bio	Authority + science.
5	Superior Bioscience — superiorbioscience.com	Premium + Bio	Plain-spoken quality claim.
6	Exemplar Peptides — exemplarpeptides.com	Standard/authority	"The exemplar" — reference-grade.
7	Integra Peptide — integrapeptide.com	Latin-scientific	Integrity/integration cue (⚠ Integra LifeSciences exists — clear).
8	Accura Peptide — accurapeptide.com	Latin-scientific	Accuracy cue; lab-grade sound.
9	Maxima Peptides — maximapeptides.com	Latin-scientific	Peptide Sciences-era gravitas.
10	Suprema Peptides — supremapeptides.com	Latin-scientific	Premium Latin.
11	Ultima Peptide — ultimapeptide.com	Latin-scientific	"The final word."
12	Calibre Peptide — calibrepeptide.com	Precision	British spelling reads upscale; caliberpeptide open too.
13	Peptide Medica — peptidemedica.com	Medical	The most "medical" of the set (+ peptimedica.com).
14	Clinipeptides — clinipeptides.com	Clinical	Clinical-compound sound.
15	Probiotide — probiotide.com	Pro-compound	The Protide Health analogue (⚠ near Protide Health — clear first).

#	Name	Pattern	Note
16	Proclinicals — proclinicals.com	Pro-compound	ProHealth-style, category-flexible.
17	Peptidyne Therapeutics — peptidynetherapeutics.com	Coined + Therapeutics	From the science pass; full biotech dress.
18	Cedar Bioscience — cedarbioscience.com	Modifier + Bio	Calm, credible (⚠️ Cedar Pharma crowd).
19	Stalwart Peptides — stalwartpeptides.com	Premium + Peptides	Strength/reliability cue.
20	Dynasty Peptide — dynastypeptide.com	Premium + Peptides	Legacy/premium cue.

Also open in this style: capitalpeptide, bastionpeptide, elevatedbiotech, paramountbioscience (⚠️ Paramount Peptides + Paramount Global — high risk), peptidesformulations, peptidesstandards, peptideskinetics, peptidessynthetics, peptidesconsortium, apexbiopeptides.

RUO reality check: this naming style deliberately mimics the research-vendor shelf — that's the look you asked for, and these fit it. But remember the landscape finding: this style is increasingly FDA-enforcement-coded (Peptide Sciences shut down, Amino Asylum raided). Best used for a B2B/science face, not the consumer platform brand.

The Complete AURA Matrix

Added: August 16, 2026 · 268 aura combinations checked (both directions + coinages)

⚠ Read before falling in love with this vein

"Aura" carries three heavyweight collisions before you even pick a suffix: **aura.com is Aura, the ~\$2B+ digital-security company**; **Aura Health** is a major meditation app; Aura Frames owns consumer mindshare — and most importantly for this category, "Aura" is **phonetically identical to Oura**, the dominant health/longevity wearable. Any "Aura" longevity brand will be heard as "Oura" on the radio test and invites confusion with one of the best-lawyered brands in the space. Use this vein for a product-line name, not the company.

Updated: August 15, 2026 · Companion to `peptide-domain-research.md`

The earlier shortlist was run through a **hostile trademark / collision / linguistics screen** — every name searched for reasons to *reject*. Most did not survive. What follows is only the names that did, each with the specific flaw that keeps it off a "perfectly clean" rating, plus availability across `.com` `.ai` `.io` `.gg` `.club`.

Read this first — two hard truths from the screen: 1. **[Word] Peptide is structurally weak.** The second word is generic and unprotectable, so you're really trademarking the first word alone — and the peptide space is swarming with "research use only" grey-market vendors, so *regal/imperial/royal/prime* styling reads as a research-chem storefront. 2. **None of the survivors are 100% clean.** Each is "least-fatal," not "clear." Before committing to any one, run a formal **USPTO knockout search (Class 5 supplements / Class 31 pet, Class 44 telehealth)** and a live domain + social-handle check. This document is a screen, not legal clearance.

What got cut, and why (so you don't revisit them)

Name	Killed by
Peptovi	Peptivo.com — an existing peptide/GLP-1 telehealth brand, one letter off (i ↔ o). Indistinguishable when spoken.
Peptura	The name is already a live grey-market research-peptide vendor (peptura.org/.us) — "research use only, not for human consumption."
Imperial Peptide	"Imperial Peptides" already exists as a cluster of grey-market vendors (US + UK).
Regal Peptide	Grey-market-coded ("Royal Peptides" is a vendor) + Regal Labs sells supplements.
Lantern Peptide	Lantern Pharma — a <i>public</i> clinical-stage oncology biotech (NASDAQ: LTRN). Direct TM exposure.
Cobalt Peptide	Cobalt is a toxic heavy metal ("cobaltism," cardiotoxic) — a poison-metal name on an ingestible + Cobalt Pharmaceuticals.
Meridide	Unspellable on hearing (MER-ih-dyde? meh-RID-ee?); the "-ide" ending sounds like a chemical, not a brand.
Pupitide	FATAL — "Puptide" already exists (takepuptide.com): a real dog peptide + NMN longevity supplement. Same niche, one letter apart.
Collapup	Reads as "COLLAPSE." Catastrophic for a longevity brand.

Name	Killed by
Pawllagen	Radio test fails (nobody spells the double-L) and the paw+collagen pun is already a category cliché (Pawable Collar-Gen, PawLabs).
Best Boy Labs	"Best Boy" is a film-crew title; "Good/Best Boy" is the single most saturated trope in dog supplements.
K9 Renew / Good Boy Vital / Snout Vital	"K9", "Good Boy", and "Snout"/"Vital" spaces are wall-to-wall — generic, weak, undifferentiated.

The best names — humans

All five are **available across every requested TLD**. Ranked by *least-fatal* per the screen. The "peptide" in the string is optional — see the note above; a coined/arbitrary name you can fully own is strategically stronger if you can clear one.

Rank	Name	.com	.ai	.io	.gg	.club	The one caveat to clear
1	Harbor Peptide	✓	✓	✓	✓	✓	Only hit is Harbour BioMed — foreign, British "Harbour" spelling, antibody drugs (not consumer). Cleanest radio + vibe of the set.
2	Ridge Peptide	✓	✓	✓	✓	✓	No consumer-peptide collision; Ridge Bio/Pharma are B2B. Watch: Ridge Wallet owns DTC "Ridge" recall; a touch generic.
3	Cedar Peptide	✓	✓	✓	✓	✓	Premium, calm, effortlessly spellable. Watch: "Cedar" is crowded in health (Cedar Inc, Cedar Pharma) and reads generic-spa.
4	Sable Peptide	✓	✓	✓	✓	✓	Luxe, short, memorable. Watch: Sable Therapeutics is a science-beauty brand in your skincare adjacency — closest collision.
5	Kindred Peptide	✓	✓	✓	✓	✓	Warmest/most distinctive. Watch: Kindred Healthcare (large) + KindredBio (biopharma, bought by Elanco) — clear carefully.

Pick order: if you want the safest, most ownable name → **Harbor Peptide**. If you want warmth/personality and will pay for a careful clearance → **Kindred Peptide**. If skincare is the wedge → avoid **Sable** (Sable Therapeutics) and take **Cedar**.

The best names — dogs

The dog pool was gutted (Pupitide and Collapup were fatal). These four survived the screen clean and are **available across every TLD**. The "-cell" names carry a real advantage: "cell" reinforces a *cellular-longevity / peptide* story instead of undercutting it.

Rank	Name	.com	.ai	.io	.gg	.club	Why it survived
1	Pupcell	✓	✓	✓	✓	✓	USPTO-clear (no "Pupcell"/"Pup Cell" mark). Cleanest slate in the whole study; "cell" is on-theme. Only soft note: style the wordmark so it doesn't read "pup-sell."
2	Houndcell	✓	✓	✓	✓	✓	No brand collision found; same cellular-longevity theme as Pupcell, slightly more grown-up ("hound" vs "pup").
3	Puprenew	✓	✓	✓	✓	✓	No collision; "renew" squarely on-theme for longevity. Style as PupRenew to avoid the faint "...ew" tail.
4	Foreverhound	✓	✓	✓	✓	✓	No collision; clean longevity promise, easy to say/spell, premium enough for a longevity price point.

Dropped on re-check: **caninecell** — too close to the existing **Canine Red Cell** supplement.

Pick order: **Pupcell** is the standout — it's the single cleanest name in the entire study and the "-cell" story ties directly to peptides/longevity. **Houndcell** is the natural sister brand if you want a more mature tone.

Availability method (this round)

Each name was queried for an NS / SOA record against public resolvers for **every TLD** (.com/.ai/.io/.gg/.club); an authoritative **NXDOMAIN = available**. Verified with a second independent resolver + record type (controls `claude.ai`, `openai.io`, `dan.gg`, `get.club` all correctly returned *taken*). Collision findings came from live web/trademark searches; see the source links in the two research passes. **Availability shifts daily — confirm at purchase, and clear the trademark before you build.**

Top 25 — v3 (SUPERSEDED BY TOP 30 v4, previous section)

Updated: August 16, 2026 · Investor lens primary · **Alder demoted** · Vitanova **rejected**

Across eight generation passes, **6,232 names checked** → **2,003 DNS-open leads**. Five rounds of hostile trademark/collision/linguistics screening (~90 finalists individually researched) produced this ranking. The lens is now **brand equity first**: platform-ability, memorability, and collision profile outrank raw trademark whitespace. That is why Alder — legally clean but semantically empty — no longer leads, and why names containing "peptide" sit in their own lower tier (wedge brands, not platform brands).

Two corrections this version bakes in: 1. **Vitanova is REJECTED with prejudice** — the deep screen found a live USPTO registration (Class 5, supplements), an operating NMN-longevity brand at getvitanova.com, an Rx product in India, a fertility chain, and a public shell all on the name. My earlier recommendation was wrong; the re-screen caught it. 2. **"available" = DNS-open lead**, not registry-confirmed (the malibupeptide lesson — it is TAKEN and has been removed from this list). Verify every name in a registrar box, then run a USPTO knockout (Cl. 5/44) before building.

Tier 1 — Platform-grade survivors (stress-tested KEEPs)

#	Name	Domain	Why it leads
1	Spancell	spancell.com	The only unqualified KEEP of the venture-grade screen: "lifespan + cell" means something, two crisp syllables, science-coded, TM likely clearable in Class 5, no in-category collision. Platform-scale — works for peptides today and whatever's next.
2	Encore Cell	encorecell.com	Best narrative in the study — "your second act." Only survivor of the action-word batch. Conditional: "Encore" is crowded in med devices (Encore Medical/Vision), so a Cl. 5/10/44 knockout is required; no exact "Encore Cell" mark found.
3	Houndcell	houndcell.com	The dog-line winner: clean screen, no bad reading, cellular-longevity story. Natural sister brand to Spancell/Pupcell.
4	Reeflongevity	reeflongevity.com	Clean legally (Reef = footwear only), longevity-literal, self-spelling. Longer than ideal, but a real platform name.
5	Pupcell	pupcell.com	USPTO-clear, most memorable dog name; style the wordmark to defuse the faint "pup sell" reading.

Tier 2 — Brand bench (usable after coexistence/TM clearance)

#	Name	Domain	The knock
6	Puprenew	puprenew.com	Clean screen; soft "-ew" tail — style as PupRenew.

#	Name	Domain	The knock
7	Coredose	coredose.com	Clearable; "dose" names the pill, not the platform.
8	Stride Vital	stridevital.com	Clearable if Stride Health coexistence checks out; weak category signal.
9	Sculpt Cell	sculptcell.com	Available and evocative, but drifts toward the litigious CoolSculpting/med-spa space.
10	Distill Rx	distillrx.com	Purity story; knocks are the distillery reading and "Rx" regulatory bait.
11	Mitoevo	mitoevo.com	Mitochondrial story; vowel pileup hurts the radio test.
12	Pepvim	pepvim.com	Clean and tight, but lightweight — gummy-vitamin energy.
13	Summitdose	summitdose.com	Clearable; "peak dose" reads psychedelics-adjacent.
14	Awaken Dose	awakendose.com	Benefit verb; Awakn Life Sciences phonetic overlap + microdosing read.

Tier 3 — Coined (ownable, carries the "pep" tell)

#	Name	Domain	Note
15	Peptovance	peptovance.com	Best coined survivor — no collision found, spells cleanly.
16	Peptaronix	peptaronix.com	Collision-clean, biotech feel; "-onix" leans research-chem, clear via TESS.
17	Peptidyne Bio	peptidynebio.com	Clean coined root; "-dyne" crowded, "bio" is filler.

Tier 4 — [word]peptide compounds (wedge brands only — category-locked by design)

#	Name	Domain	Note
18	Montauk Peptide	montaukpeptide.com	Best of the compounds: evocative, no in-lane collision.
19	Reef Peptide	reefpeptide.com	Short, punchy; Reef footwear only.
20	Ridge Peptide	ridgepeptide.com	Distinctive; Ridge Wallet owns DTC "Ridge" recall.
21	Athletic Peptide	athleticpeptide.com	Clean fitness positioning; somewhat descriptive.
22	Harbor Peptide	harborpeptide.com	Warm; "Harbor" crowded in telehealth.
23	Alder Peptide	alderpeptide.com	Demoted from #1. Legally the cleanest compound, but semantically empty — no health meaning, no story, wedge-only. Keep as a defensive registration at most.
24	Cedar Bioscience	cedarbioscience.com	The science lane's cleanest "Cedar"; Cedar Pharma crowd requires clearance.
25	Visionary Peptide	visionarypeptide.com	The open "vision" lane; laudatory-generic + Lipotriad Visionary.

Part 12 — Health & Science Focus Words

Deep Dive — Health, Clinic, Cell, Youth & Biohacking Focus Words

Added: August 15, 2026 · Focus-word expansion (dose · clinic · rx · health · wellness · vital · cell · cyto · mito · youth · longevity · biohacking · protocol · science terms)

879 candidates checked → **244 DNS-open leads**. Curated best per focus word below.

Same accuracy caveat: "available" = DNS-open lead (no nameserver delegation), **not registry-confirmed** — verify each in a registrar search box before buying (RDAP/WHOIS are firewalled here). Collision flags below are from earlier research; ⚠️ = a real company owns the modifier.

Best per focus word

Dose — clean, clinical, modern (strong category)

coredose · summitdose · meridiandose · catalystdose · forgedose · emberdose · helixdose · axisdose
Biohacking-dose: optimizedose · upgradedose · enhancedose · activatedose · unlockdose ⚠️ avoid:
cedardose (Cedar health-fintech), lumendose (Lumen metabolism device), aerdose / ondadose / vireodose
(Aer/ONDA/Vireo).

Cell / Cyto / Mito — the richest vein (85 leads); "mito" = mitochondria, very biohacking

coremito · novamito · primemito · zencyte · northcyte · auracyte · cytopeptide · cyclepeptide ·
pepmito · pepcyto Reef family (clean, footwear-only collision): reefcyte · reefmito · reefcellular ⚠️ avoid:
lumencyte/lumenmito, kindredmito, cedarcell, vireocyte, aercyte, ondamito.

Biohacking — you asked for this specifically (39 leads)

peakbiohack · corebiohack · reefbiohack · summitbiohack · northbiohack · kineticbiohack ·
helixbiohack Action verbs + peptide: upgradepeptide · unlockpeptide · superchargepeptide ·
amplifypeptide · peptideupgrade ⚠️ avoid: cedarbiohack, lumenbiohack, ondabiohack, vireobiohack;
skip biobiohack (redundant), biohackingpeptide (descriptive).

Vital / Vitality

cytovital · cytovitality · catalystvital · protovitality ⚠️ cedarvital/cedarvitality (Cedar),
aervitality/ondavitality (Aer/ONDA).

Youth / Longevity / Span

spanpeptide · reefspan · pepyouth · pepageless · cardinalsan · meridianspan · protoyouth ⚠️
kindredspan (Kindred), cedaryouth (Cedar), aeryouth / ondayouth / vireoyouth.

Rx / Apothecary / Dispensary / Script (premium-clinical)

apothecarypeptide · pepapothecary · scriptpeptide · dispensarypeptide (*"Apothecary" reads artisanal-premium; strongest of this group.*)

Science terms (receptor · ligand · potency · assay · synthesis) — research-vendor angle, descriptive

receptorpeptide · ligandpeptide · peptidepotency · assaypeptide · synthesispeptide ·
peptidereceptor *Note: "peptide receptor" is a literal scientific term — clear to register but weak as a brand.*

Protocol / Stack / Regimen / Cycle (peptide-user vernacular)

cyclepeptide · regimenpeptide · superchargestack · superchargeprotocol · aerprotocol (*"Cycle" and "stack" are exactly how peptide users talk — good for a community/vendor brand.*)

Clinic — mostly taken; slim pickings

alderclinic · pepclinical (*the clean [word]clinic.com space is largely gone.*)

Top 10 from this batch (my picks, all leads — verify at registrar)

1. **coredose.com** — clean, clinical, modern; best "dose" name
2. **cyclepeptide.com** — peptide-user vernacular ("cycle"); on-domain

Short Health & Youth/Biohacking Words

Added: August 15, 2026 · Focus: **short, punchy** modifiers

876 short combinations checked → **165 DNS-open leads**. Shorter = more competition, so the hit rate is lower — but the survivors are tight and brandable. Curated below, shortest first.

Accuracy caveat (unchanged): "available" = DNS-open lead, not registry-confirmed — verify each at a registrar.

= known collision. **One vein-wide flag:** the **cyte-** prefix (Greek for *cell*) generated many great short names, but **Cyte Therapeutics** (stem-cell biotech) exists — treat all **cyte-** names as **RISKY** and clear before use.

12. **cyteup.com** ⚠️ — cellular uplift (clear Cyte Therapeutics first)

Full 165-lead list is in `domain_availability.csv` (segment = short).

Trendy Neighborhood & District Names — "Soho" Vein

Added: August 15, 2026 · Sparked by a real buy: sohopeptide.com

The chic-enclave pattern (short, globally recognizable, upscale, effortless to say) is a strong vein for a premium peptide brand. **236 neighborhood candidates checked; 39 of the 40 most iconic show DNS-open.**

⚠ Read this about "available" (methodology correction)

This environment has **no authoritative registry access** (RDAP and WHOIS/port-43 are firewalled) — only DNS. So "available" here means "**has no nameserver delegation**", which is a strong *lead* but **not a guarantee**: a domain that's registered-but-parked-with-no-DNS (e.g. malibupeptide.com, which looked open but is actually taken) reads the same as a truly free one. The signal reliably identifies **taken** names (they have nameservers) but the "available" set is a **grab-check list** — confirm each in a registrar's search box before buying, exactly like sohopeptide.com was. Treat every "available" name across this whole study the same way.

Themed Modifier Expansion — Places, Fitness, Health, Youth/Age

Updated: August 15, 2026 · Companion to [best-names.md](#)

Four new modifier families, checked for availability. **164 of 407 new candidates are open on .com**. Curated best-of-theme below, each verified available across **.com .ai .io .gg .club**, with collision flags where a real company owns the space.

Same caveats as the stress test apply: a [word] Peptide mark protects only the first word, "peptide + gym-slang" reads grey-market, and none of these are legally cleared — USPTO knockout before you build.

1. Wealthy places 🏡

The best of these are evocative and premium; the trap is a place-name that's also a pharma company or a product.

Pick	.com	.ai	.io	.gg	.club	Note
Montauk Peptide	✓	✓	✓	✓	✓	Coolest of the set — surf-town-luxe, clean collision profile.
Malibu Peptide	✓	✓	✓	✓	✓	Strong wellness aura; minor echo of Malibu rum, but "peptide" separates it.
Nantucket Peptide	✓	✓	✓	✓	✓	Preppy-premium; long but distinctive.
Palm Springs Peptide	✓	✓	✓	✓	✓	Desert-wellness/spa energy.
Sonoma Peptide	✓	✓	✓	✓	✓	Calm wine-country premium; short, easy.
Tahoe Peptide	✓	✓	✓	✓	✓	Clean, alpine, short.
Carmel Peptide	✓	✓	✓	✓	✓	Premium; minor "caramel" homophone.
⚠️ Aspen Peptide	✓	✓	✓	✓	✓	RISKY — Aspen Pharmacare is a major global pharma company.
⚠️ Telluride Peptide	✓	✓	✓	✓	✓	Minor — Kia Telluride SUV + "telluride" is a chemical compound.

Also available (.com): beverlyhills, jacksonhole, vail, scottsdale, greenwich, charleston, savannah, keywest, coronado, lajolla, laguna, napa, healdsburg, sunvalley, bigsky, kiawah, seaisland, southampton, easthampton, bridgehampton, sagharbor, amagansett, montecito(taken)/ojai, tribeca, soho, manhattan, worthave, madisonave, rodeo, boca, wellington, saratoga, capecod, chatham, darien, westport, rye, sanibel, marthasvineyard, edgartown, parkcity, atherton, hillsborough, stbarths — each as ...peptide.com (and most ...peptides.com). hamptonlabs.com is also open.

2. Athletics & fitness 💪

Clean performance words vs. bodybuilding-forum slang. **Note:** [fitpeptide.com](#), [leanpeptide.com](#), and [shredlab.com](#) are already **taken**. The gym-slang names below are available but read grey-market/"cutting cycle" — a real liability in a category the FDA is actively policing. Use with eyes open.

Pick	.com	.ai	.io	.gg	.club	Note
Athletic Peptide	✓	✓	✓	✓	✓	Cleanest, most professional; broad-market safe.
Drive Peptide	✓	✓	✓	✓	✓	Short, motivational, not gym-coded.
Stamina Peptide	✓	✓	✓	✓	✓	Endurance angle; clean.
Tactical Peptide	✓	✓	✓	✓	✓	Military/performance vibe; distinctive.
⚠ Shred Peptide	✓	✓	✓	✓	✓	You asked for it — available, but reads bodybuilding/grey-market.
⚠ Gains / Lift / Ripped / Swole / Jacked Peptide	✓	—	—	—	—	All open on .com ; all heavily gym-slang-coded.

Also available ([.com](#)): athleticpeptide, cutpeptide, drivepeptide, gainspeptide, gladiatorpeptide, grindpeptide, hustlepeptide, jackedpeptide, liftpeptide, olympianpeptide, rippedpeptide, shreddedpeptide, shredpeptide, staminapeptide, sweatpeptide, swolepeptide, tacticalpeptide, thrustpeptide, varsitypeptide.

3. Health modifiers

Note: [visionpeptide.com](#) and [visionlabs.com](#) are **both taken** (VisionLabs is a real AI/face-recognition company). "Visionary" is the open lane. Many single health-word + peptide names are descriptive and weak (immunepeptide, memorypeptide reads like a lab label, not a brand).

Pick	.com	.ai	.io	.gg	.club	Note
Visionary Peptide	✓	✓	✓	✓	✓	The open "vision" play; aspirational, ownable.
Luminous Peptide	✓	✓	✓	✓	✓	Skincare/glow crossover; premium.
Resilience Peptide	✓	✓	✓	✓	✓	Recovery/stress angle; on-trend.
Cognition Peptide	✓	✓	✓	✓	✓	Nootropic/focus positioning.

Also available ([.com](#)): visionarypeptide(s), healthspanpeptide ⚠ (see below), immunepeptide, immunitypeptide, memorypeptide, mentalpeptide, cognitionpeptide, vascularpeptide, resiliencepeptide, luminouspeptide. *Descriptive/weak but open — not recommended as a primary brand.*

4. Youth / age / biohacking

The richest theme for a longevity brand — but also where the real longevity companies live, so collisions are the danger.

Pick	.com	.ai	.io	.gg	.club	Note
Rewind Peptide	✓	✓	✓	✓	✓	Best of the batch — "rewind aging" is instantly legible, clean, brandable.

Pick	.com	.ai	.io	.gg	.club	Note
Youthspan Peptide	✓	✓	✓	✓	✓	Healthspan-style construction without the trademark clash.
Zeroage Peptide	✓	✓	✓	✓	✓	"Biological age zero" — very biohacker (Bryan-Johnson-adjacent, not his mark).
Everyoung Peptide	✓	✓	✓	✓	✓	Warm, clear longevity promise.
Primeage Peptide	✓	✓	✓	✓	✓	"Prime age" — confident, clean.
⚠ Bioage Peptide	✓	✓	✓	✓	✓	RISKY — BioAge Labs is a public longevity biotech (NASDAQ, Novartis deal).
⚠ Healthspan Peptide	✓	✓	✓	✓	✓	RISKY — Healthspan (gethealthspan.com) is an active longevity company + Healthspan Ltd (UK vitamins).

Also available (`.com`): rewindpeptide(s), youthspanpeptide(s), youthfulpeptide, everyoungpeptide, primeagepeptide(s), zeroagepeptide(s), reversepeptides, reversalpeptide(s), regeneratepeptide, immortalpeptide, longevouspeptide(s), agerewindpeptide, autophagypeptide(s), sirtuinpeptide(s), ageless2peptide(s). *Note*: immortalpeptide is bold but invites FTC/marketing scrutiny (implying immortality); autophagy/sirtuin are real longevity mechanisms — sophisticated but jargon-heavy.

Top of the whole expansion, if forced to pick

1. **Rewind Peptide** — clearest, most brandable idea in the entire themed set for a longevity play.
2. **Montauk Peptide** — the standout wealthy-place name: premium, cool, clean collision profile.
3. **Athletic Peptide** — the clean, broad-market fitness option (skip the gym-slang ones).
4. **Visionary Peptide** — the open "vision" lane after vision/visionlabs came back taken.
5. **Youthspan Peptide** — healthspan energy, none of the healthspan/bioage trademark risk.

All available on `.com/.ai/.io/.gg/.club`. Confirm at a registrar and run a USPTO knockout before committing.

Science, Research & Lab Domains — Biotech-Forward Naming

Updated: August 15, 2026 · Companion to [best-names.md](#)

A science/technology angle for the brand — names that read like a **research company or biotech**, not a consumer supplement. Generated by pairing peptide/amino/protein stems (and clean modifiers) with science suffixes ([sciences](#) · [research](#) · [labs](#) · [bio](#) · [biotech](#) · [biosciences](#) · [therapeutics](#) · [technologies](#) · [genomics](#) · [diagnostics](#) · [discovery](#) · [synthesis](#) · [proteomics](#)). **174 of 528 candidates are available on .com**.

Two structural cautions specific to this theme: 1. **This is where the real biotechs live** — several generated names collide with actual companies (see the avoid-list). A science name invites confusion with clinical-stage firms, so the USPTO knockout matters even more here. 2. **"Peptide Sciences" itself is gone** (the shut-down grey-market vendor). Descriptive Peptide + [science word] names are clear to register but weak as trademarks — the coined names below are stronger.

Best science/tech picks

All available across [.com](#) [.ai](#) [.io](#) [.gg](#) [.club](#) unless noted (✓ = open).

Coined — strongest & most ownable

Name	.com	.ai	.io	.gg	.club	Note
Peptidyne Bio / Peptidyne Therapeutics / Peptidyne Sciences	✓	✓	✓	✓	✓	"Peptidyne" is a clean coined biotech name. Bare peptidyne.com is taken, but every compound + all extensions are open.
Peptaronix	✓	✓	✓	✓	✓	Coined, deep-biotech feel; fully ownable.
Peptidatx	✓	✓	✓	✓	✓	"peptida + Tx" — Tx is standard biotech shorthand for therapeutics. Sharp, modern.
Peptovance	✓	✓	✓	✓	✓	Peptide + advance; confident, clean.

Modifier + science — clean & professional

Name	.com	.ai	.io	.gg	.club	Note
Cedar Bioscience / Cedar Sciences	✓	✓	✓	✓	✓	Calm, premium, science-forward.
Cypress Sciences	✓	✓	✓	✓	✓	Clean nature+science pairing.
Aria Biosciences	✓	✓	✓	✓	✓	Elegant, brandable.
Axon Sciences	✓	✓	✓	✓	✓	Neural/science cue.

Name	.com	.ai	.io	.gg	.club	Note
Harbor Bioscience / Harbor Sciences	✓	✓	✓	✓	✓	(harborbio.com is taken; these are open.) Pairs with the "Harbor Peptide" pick.

Descriptive — biotech-generic but clear

Peptide Biotherapeutics · Peptides Biologics · Peptides Technologies · Peptides Diagnostics — all available on every TLD. Clear to register, but generic; better as a legal entity name than a brand.

⚠ Avoid — these collide with real biotech companies

Even though several are "available," don't use them — confusion + trademark exposure:

- **Kindred Bioscience** → *Kindred Biosciences* (real biopharma, acquired by Elanco)
 - **Ridge Bioscience / Ridge Sciences** → *Ridge Biotechnologies*
 - **Onyx Bioscience** → *Onyx Pharmaceuticals* (acquired by Amgen)
 - **Quanta Bioscience** → *QuantaBio* (life-science reagents)
 - **Sable Bioscience** → *Sable Therapeutics*
 - **Molecular Dynamics** → long-established scientific term / former company

Peptide Domain Research — Humans & Dogs

Prepared: August 15, 2026 **Scope:** Competitive landscape, keyword/modifier lexicon, a large availability sweep of .com domains, and a curated shortlist of the best domains buyable for **\$15,000 or less**.

How to read this document

1. **Competitive landscape** — ~170 real, currently-operating sites (peptide + dog) so we can avoid copying anyone's name or brand.
2. **Modifier & keyword lexicon** — the word banks used to generate candidates.
3. **Availability method** — how availability was verified.
4. **Confirmed-available domains** — 147 .com names verified open to hand-register (~\$12/yr each).
5. **The shortlist** — the best names under \$15k, human and dog.
6. **Aftermarket / premium names** — strong taken names and real benchmark prices.
7. **Appendix** — 26 names that couldn't be verified this session (recheck before relying on them).

Data files in this folder: - domain_availability.csv — every candidate checked (892 rows) with status + segment. - competitive-landscape.md — the full avoid-list with descriptions.

1. Competitive landscape (do NOT copy these)

Full annotated list lives in **competitive-landscape.md**. Summary of who owns the space:

Human peptides — the naming is saturated

- **[Modifier] Peptides** is roughly half the research-vendor market: Core, Biotech, Polaris, Patriot, American, Royal, Koi, Ascension, Everest, Paramount, Prime, Iron Peak, Blue Sky, Vellora, Biogenix.
- **Peptide [noun]**: Peptide Sciences (shut down Mar 2026), Peptide Partners, Peptide Store, Peptide Plugs, Peptide Supply Co, Peptide Crafters.
- **Trust-signal adjectives as the brand**: Verified Peptides, Licensed Peptides, Protide Health — a fast-growing 2025–26 wave.
- **Amino- / -Labs / -Labz / Bio-**: Amino Asylum (FDA-raided), Amino Vault, Umbrella Labs, Behemoth Labz, Modern Bio, Cernum Biosciences. Grey-market vendors lean on offshore TLDs (.is , .co , .store , .partners , .us) because the .com is contested.
- **Telehealth deliberately avoids the word "peptide"**: Hims, Ro, Mochi, Henry, Eden, Found, Marek, Hone, Ivim, Defy, AgelessRx — short friendly names with join-/try-/start- prefixes.
- **Skincare** uses peptide-as-hero at the *product* level (HydroPeptide, Peptide 21, Multi-Peptide) but rarely at the company level (OneSkin trademarks a proprietary peptide, OS-01, as the moat instead).

- **Manufacturers** use compressed science compounds: GenScript, Bachem, PolyPeptide, AmbioPharm, CordenPharma, LifeTein, AnaSpec.

Dogs / pets — "-tides", "paw-", and "pet-" are already crowded

- **-tides** blends are taken in the exact niche we want: **Pettides**, **Pawtides**, and Integrative Peptides' **PetTides** line. (This is why `puptides.com` is gone — see §5.)
- **paw-** is the single most overused morpheme: Pawtides, Pawfy, Paw Origins, HardyPaw, Wonder Paws, Honest Paws.
- **pet-** : PetLab Co, PetHonesty, Pet Matrix, Pettides.
- **vet-** for clinical authority: Vetster, VetriScience, Vetnique, Airvet.
- **Dog-longevity incumbents to respect**: Loyal (`loyalfordogs.com`), Leap Years, Rejuvenate Bio, MYOS Pet, plus collagen-for-dogs brands K9 Collagen, Pure Majesty, Pat's Pet Kitchen.

Strategic takeaway: the `[word] Peptides` / `Peptide [word]` / `Amino [word]` / `[word] Labs` patterns are saturated *and* increasingly associated with grey-market vendors and FDA enforcement. The open lanes are (a) a **coined single word** (Peptovi, Peptura), (b) an **unexpected concrete modifier** (Foundry, Cobalt, Kindred, Sentinel), or (c) for dogs, a **fresh pun that isn't paw-/pet-/tides** (Pupcell, Pupitide, Collapup).

2. Modifier & keyword lexicon

Core keyword (kept literal in most candidates)

`peptide`, `peptides` — plus the coinable stems `pep-`, `-tide`, `-tides`, `amino-`, `-pept`.

Category / trust modifiers (the "peptide, lab, health" family the brief asked for)

`peptide` · `peptides` · `lab` · `labs` · `science` · `sciences` · `health` · `wellness` · `bio` · `biotech` · `rx` · `clinic` · `therapy` · `research` · `pharma` · `supply` · `co` · `works` · `house` · `haus` · `method` · `protocol` · `dose` · `vault` · `reserve` · `foundry` · `craft` · `direct` · `source` · `path` · `form` · `flow`

Strength / trust / premium strings

`america` · `american` · `patriot` · `liberty` · `freedom` · `eagle` · `royal` · `regal` · `crown` · `imperial` · `sovereign` · `noble` · `prime` · `peak` · `apex` · `summit` · `pinnacle` · `core` · `true` · `honest` · `trusted` · `certified` · `verified` · `iron` · `titan` · `atlas` · `sterling` · `sentinel` · `citadel` · `rampart` · `warden` · `keystone` · `fortis` · `anchor` · `beacon`

Aspiration / vitality / longevity strings

`thrive` · `vital` · `vitality` · `vigor` · `pure` · `clear` · `bright` · `golden` · `elevate` · `ascend` · `evolve` · `renew` · `revive` · `restore` · `rejuvenate` · `longevity` · `boundless` · `limitless` · `infinite` · `evergreen` · `wellspring` · `kindred` · `momentum` · `catalyst` · `quantum` · `vertex` · `zenith` · `meridian` · `horizon` · `frontier` · `pioneer` · `vanguard`

Nature / mineral / place strings (clean, modern, un-medical)

azure · cobalt · indigo · coral · quartz · marble · slate · sable · stone · granite · flint · onyx · mountain · ridge · canyon · mesa · boulder · bedrock · cedar · aspen · spruce · oak · rowan · sequoia · timber · cypress · harbor · cove · summit · north · pacific · aurora · solstice · zephyr

Dog / pet strings (with the cute lane emphasized)

- **Pun stems:** pup- · pupi- · -tide → pupitide · collap- (collagen) · -llagen · k9 · hound · snout · bark · fetch · wag · woof · tail
- **Warmth words:** goodboy · bestboy · bestfriend · loyal · noble · companion · forever · ageless
- **Vitality words reused:** thrive · vital · renew · revive · span · cell · years

3. Availability method

Every candidate `.com` was checked against the **authoritative Verisign `.com` gTLD nameservers** (a/b/c/d/e/f.gtld-servers.net) with a direct `NS` query:

- **rcode 3 (NXDOMAIN)** → the name has no delegation → **AVAILABLE to register.**
- **rcode 0 (NOERROR, delegation present)** → **TAKEN.**

This is the same signal registrars use, and it is *not* fooled by parked/for-sale pages (those are registered → correctly reported TAKEN). Results in `domain_availability.csv`.

Caveat: near the end of the sweep the session's outbound DNS was rate-limited, leaving **26 names unverified** (Appendix A). They are *excluded* from the confirmed list below — recheck them at your registrar before buying.

892 candidates checked → 147 confirmed available, 719 taken, 26 unverified.

4. Confirmed-available `.com` domains (147)

All are open to **hand-register today (~\$10–15/year)** — every one is, by definition, far under the \$15,000 ceiling. Grouped for scanning; the shortlist in §5 is the curated best.

5. The shortlist — best domains under \$15,000

Because all 147 confirmed names hand-register for ~\$12/year, the "\$15k or less" budget is *comfortably* met by simply registering. The picks below are ranked on brandability, memorability, and distance from the saturated patterns in §1.

Human peptides — top 15

#	Domain	~Cost	Why it's strong
1	peptovi.com	reg (~\$12)	Coined, ownable, trademark-friendly; no "peptide" baggage. Sounds like a brand, not a grey-market vendor.
2	peptura.com	reg	Coined, premium, soft "-ura" ending; pairs with human + clinical use.
3	foundrypeptide.com	reg	"Foundry" signals made-with-rigor; concrete, masculine, memorable.
4	cobaltpeptide.com	reg	Color-word brands read modern/clean (cf. wellness DTC). Easy logo.
5	kindredpeptide.com	reg	Warm, human, community feel — rare in a clinical category.
6	sentinelpeptide.com	reg	"Guardian/quality-watch" connotation answers the "is it legit?" question.
7	azurepeptide.com	reg	Clean, calm, premium; strong in skincare/longevity crossover.
8	meridide.com	reg	Fully coined (meridian + -ide); works as a house brand across products.
9	wellspringpeptide.com	reg	Vitality/source imagery; good for a supplement or clinic angle.
10	cedarpeptide.com	reg	Nature word = trust + calm; very brandable, easy to say.
11	imperialpeptide.com	reg	Premium without being "Royal/Prime" (both taken & grey-market coded).
12	compasspeptide.com	reg	Guidance/telehealth angle; friendly, non-clinical.
13	fulcrumpeptide.com	reg	"Leverage/mechanism-of-action" story; sharp and modern.
14	voyagepeptide.com	reg	Journey/longevity narrative; consumer-friendly.
15	vitalpept.com	reg	Short, punchy, coined; good for a fast DTC play.

Dogs — top 10 (cute lane emphasized)

#	Domain	~Cost	Why it's strong
1	pupitide.com / pupitides.com	reg	The available cousin of the taken <i>puptides.com</i> — a peptide pun that's genuinely open. Cute, ownable, on-brief.
2	pupcell.com	reg	Ultra-clean; reads like a longevity/cell-health brand for dogs.
3	collapup.com	reg	Collagen + pup pun; perfect for a collagen-for-dogs line.
4	puprenew.com	reg	Longevity/renewal story; short and warm.
5	pawllagen.com	reg	Collagen pun that isn't "-tides" or plain "paw"; product-ready.
6	k9renew.com	reg	Clinical-but-approachable; good for a vet-adjacent therapy brand.
7	houndthrive.com	reg	"Thrive" vitality angle; not paw-/pet-saturated.
8	bestboylabs.com	reg	Warm, meme-adjacent ("best boy") with a science "labs" anchor.
9	fetchvital.com	reg	Playful verb + vitality; easy to build a mascot around.

#	Domain	~Cost	Why it's strong
10	agelesshound.com	reg	Longevity positioning, directly on the dog-longevity trend (Loyal, Leap Years).

If you'd rather buy a premium/aftermarket name (real benchmarks)

Domain marketplaces couldn't be queried directly this session, but public listings/sales show the peptide aftermarket sits **well within \$15k** for most one-word compounds:

Name	Price	Source note
peptide.co	\$12,500 (sold)	Recent end-user sale — sets the ceiling for a clean 1-word .co .
Barrier.co	\$10,000 (sold)	Oral-peptide gut-health startup — comparable brandable buy.
americanpeptide.org	\$5,495 (listed, GoDaddy)	The .org ; the .com is a live business.
peptides.mom	\$495 (listed, GoDaddy)	Cheap novelty TLD.
peptidesforsale.com, ptides.com	make-offer (Afternic)	"Get a price in 24 hours" — likely negotiable under \$15k.

Recommendation: register 2–3 of the shortlist names now (they're ~\$12 and disappear fast), and in parallel put make-offers on ptides.com or a taken 1-word [modifier]peptides.com you love — the benchmarks say \$15k buys a strong aftermarket name if you prefer an exact-match keyword.

Appendix A — 26 unverified names (recheck before relying on them)

The session's DNS egress was rate-limited before these resolved. Several (e.g. peptideshop.com, peptidelabs.com, titanpeptides.com, peptidesdirect.com) are almost certainly **taken**; a few (e.g. atlaspeptides.com, crystalpeptides.com, evergreenpeptides.com, horizonpeptides.com, certifiedpeptides.com, pupitide-adjacent) returned a *clean not-found* in an earlier pass and may well be **available** — but none are confirmed. **Recheck each at a registrar before purchase.**

aminoq.com · atlaspeptides.com · certifiedpeptides.com · crystalpeptides.com · evergreenpeptides.com · futurapeptides.com · goodboylabs.com · gopeptides.com · helixpeptides.com · horizonpeptides.com · longevitypeptides.com · onlypeptides.com · optimumpeptides.com · peplab.com · peplabs.com · peptidelabs.com · peptidesdirect.com · peptideshop.com · peptidesplus.com · puppeak.com · solacepeptides.com · sourcepeptides.com · spiritpeptide.com · titanpeptides.com · truehound.com · unitypeptide.com

Appendix B — Notable TAKEN names checked (avoid / aftermarket only)

Every "obvious strong" string the brief mentioned is already registered: americanpeptide.com · americapeptide? · royalpeptide(s).com · thrivepeptide(s).com · purepeptide(s).com · truepeptide.com · primepeptide.com · corepeptide.com · vitalpeptide.com · libertypeptide.com · eaglepeptide.com ·

peakpeptide.com · apexpeptide.com · summitpeptide.com · puptides.com · puptide.com · pawtides.com
· pawtide.com · pettides.com

These are the pool for an aftermarket buy (\$5) if an exact-match keyword matters more than a coined brand.
