

Naming a peptide supplement brand that is not named after its founder

A market audit of the grey-market and compliance-certified cohorts, the action and modifier vocabularies each one uses, and 100 available .com domains ranked for a celebrity-cofounded direct-to-consumer peptide supplement brand.

Prepared 18 September 2026 · supersedes the country-club ranking and the "Lord" round · availability from the 2 September sweep of 17,026 domains — **re-verify at a registrar before purchase**

17,026
domains checked

4,751
open .com at last sweep

100
ranked in this document

5.9%
of peptide sites hold LegitScript

The constraint that shapes every name below. Synthetic peptides such as BPC-157 and TB-500 are not lawful dietary-supplement ingredients — DSHEA excludes synthetic molecules developed as drugs, and the FDA has said so repeatedly. April 2026 removed BPC-157 from Category 2 and a July 2026 advisory committee voted 8-6 to recommend it for the 503A bulks list, but that is a compounding pathway, not a supplement pathway. A brand that sells *peptides as supplements* under a famous cofounder is the most enforceable target in the category. Practically, that leaves three lanes: **(1)** lawful peptide-adjacent supplements — amino acids, collagen peptides, creatine; **(2)** prescription compounded peptides via a LegitScript-certified telehealth; **(3)** research-use-only, which is where the celebrity makes you a target rather than a brand. The Top 100 is sorted so that lane 1 and lane 2 names are separable, and so no name traps you in lane 3.

1 · What the grey market calls itself the cohort being dismantled

VENDOR	DOMAIN	SCALE / STATUS	NAMING PATTERN
Peptide Sciences	peptidesciences.com	435K visits/mo · 75K brand searches/mo	Shut down Mar 2026 — was the category's largest at ~\$7.4M/mo
Core Peptides	corepeptides.com	707K visits/mo	Modifier + keyword
PSPeptides	pspeptides.com	Ranked #1 by popularity, 2026	Initials + keyword
Biotech Peptides	biotechpeptides.com	Rated 4.6/5 across vendor lists	Sector word + keyword
Limitless Life / Limitless Biotech	limitlesslifennootropics.com	Injectable leader	Aspiration word + category
Swiss Chems	swisschems.com	Came from SARMS into peptides	Origin-claim + chemistry word
Paradigm Peptides	paradigmpeptides.com	The 'informational' vendor	Abstract noun + keyword
Amino Asylum	aminoasylum.co	Raided / charged 2024-25	Ingredient + transgression word
Ascension Peptides	ascensionpeptides.com	COA-verified, rare blends	Elevation word + keyword

VENDOR	DOMAIN	SCALE / STATUS	NAMING PATTERN
Protide Health	protidehealth.com	Top of several 2026 rankings	Coined contraction + Health
Oath Research	oathresearch.com	Named as a leading alternative	Trust word + Research
HEEZ Research	heezresearch.com	Broadest cross-class catalogue	Coined + Research
Felix Chemical Supply	felixchemicalsupply.com	Best budget domestic	Human name + Chemical Supply
Life Link Research	lifelinkresearch.com	99%+ HPLC purity claim	Compound + Research
Peptide Partners	peptidpartners.com	Named alternative	Keyword + relationship word

The pattern: modifier + category keyword, almost without exception — *Core+Peptides*, *Biotech+Peptides*, *Paradigm+Peptides*, *Ascension+Peptides*. The modifier does all the trademark work and none of it is strong. The suffixes that recur — **Research, Chems, Sciences, Supply, Labs** — exist to signal "not for human consumption," which is precisely the signal a consumer supplement brand must not send. The category's largest name, Peptide Sciences, was doing an estimated \$7.4M/month before it shut down in March 2026 and still pulled ~\$207K/month in residual revenue in July — evidence of how much of this traffic is brand search that survives the brand.

2 · What the compliant cohort calls itself telehealth and certified merchants

BRAND	DOMAIN	SCALE / STATUS	NAMING PATTERN
Hims	hims.com	5.6M visits/mo	Pronoun. No category word at all.
Ro	ro.co	~3-4M visits/mo	Two letters. Maximum abstraction.
Henry Meds	henrymeds.com	458K visits/mo	Human first name + Meds
Hone Health	honehealth.com	647K visits/mo	Action verb + Health
Marek Health	marekhealth.com	Deepest Rx peptide menu	Founder surname + Health
The Precision Peptide Company	—	LegitScript Healthcare Merchant certified	Virtue word + keyword + Company
Celia Rx	—	LegitScript-certified, HIPAA	Human first name + Rx
Pep Club	—	Launched Jul 2026: Rx + protocols + biomarkers	Fragment + membership word
Telos Rx	—	Named a top-4 peptide telehealth programme	Greek abstract + Rx
Strut Health	struthealth.com	Named a top-4 programme	Gait verb + Health
Live Vital	—	Named a top-4 programme	Verb + vitality word
Defy Medical	defymedical.com	Long-standing hormone/peptide practice	Defiance verb + Medical
Eden / Juvly / Wizlo / RiMo / Meto	—	2026 entrants	Coined two-syllable, no category word
peptide.co	peptide.co	Sold \$12,500 Jan 2026	Keyword-exact — now a certified GLP-1 telehealth

The pattern inverts. The compliant cohort almost never puts the molecule in the name. Hims, Ro, Eden, Wizlo, Meto — short, coined, category-free — and where a suffix appears it is **Health, Rx, Meds** or **Clinic**, never Research or Chems. The keywords live on product pages, where they can be changed when the law changes. Only 5.9% of 807 peptide clinic sites reviewed in July 2026 held LegitScript certification — the credential Google, Meta, Visa and Mastercard check before letting a peptide brand advertise or take card payments.

3 · What the supplement winners call themselves

the register a celebrity brand actually competes in

BRAND	DOMAIN	SCALE	NAMING PATTERN
Lemme	lemmelive.com	~\$200M sales; Ulta's top wellness brand	Spoken contraction ('lemme'). Playful, ownable, zero category signal.
Ritual	ritual.com	Category leader on transparency	Behaviour word — names the habit, not the pill.
Seed	seed.com	Gut-health leader	One syllable, biological metaphor.
Momentous	livemomentous.com	Athlete-grade single ingredients	Adjective as noun; .com needed a 'live' prefix.
Thorne	thorne.com	Clinical purity positioning	Surname. Reads laboratory, not lifestyle.
Arrae	arrae.com	Founder-led, design-first	Coined, unpronounceable-on-sight but visually distinctive.
Needed	thisisneeded.com	Prenatal nutrition	Past participle; again the .com required a prefix.
Perelel	perelel.com	Women's clinical supplements	Coined near-palindrome.
AG1	drinkag1.com	Category-defining single SKU	Alphanumeric code + 'drink' verb prefix on the domain.

Not one of them contains a category noun. Lemme, Ritual, Seed, Arrae, Perelel, Thorne — behaviour words, biological metaphors, surnames and coinages. Several could not get the bare .com and prefixed a verb instead (livemomentous, thisisneeded, drinkag1) — a reminder that a clean short .com is worth more than a perfect word. This is the register that matches a founder whose existing brand is called **Talentless**: wry, short, fashion-grade, and impossible to date.

4 · Action words

pulled from all three cohorts, scored for this brief

ACTION WORD	LANE	READ	OPEN PAIRINGS
Restore	Repair, recovery	Highest-volume action verb in category search; heavily used by clinics, still open in supplement pairings	restoreamino · restoreformula · restorevital
Rebuild	Muscle retention	The post-GLP-1 lane: keeping lean mass after weight loss	rebuildamino · rebuildcell
Recover	Training/injury	Neutral, lawful, no claim	recoveramino · recovercell
Renew	Ageing	Softest of the re- verbs; beauty-adjacent	renewamino · renewdose

ACTION WORD	LANE	READ	OPEN PAIRINGS
Reclaim	Second act	Personally resonant for a founder-led comeback story	reclaimamino · reclaimformula
Rewind	Age reversal	Highest emotional pull, highest claim risk — keep it off pack copy	rewindpeptides · rewindrx
Refine	Body composition	Says shape without saying fat loss — the compliance-safe version of Shred	refinepeptide · refinespan
Sharpen	Cognition	The nootropic lane's cleanest verb	sharpenpeptide · sharpenbio
Temper	Strength via stress	Metallurgy term. Almost unused in wellness — the strongest available action word	temperpeptide · temperrx
Anneal	Strength via heat	Same family as Temper, rarer still	annealpeptide · annealrx
Tune	Optimisation	Four letters; biohacker vernacular gone mainstream	tunepeptide · tunecell
Unlock	Access/potential	Highest click-through verb in paid copy	unlockpeptide · unlockdose
Upgrade	Biohacking	Bulletproof-era vernacular; broadly legible	upgradepeptide · upgradeamino
Charge / Ignite / Amplify	Energy	Energy trio; Ignite carries thermogenic-claim risk in copy	chargepeptide · amplifypeptide
Lift / Climb / Drive / Ascend	Performance	Training register without gym-bro coding	liftpeptide · climbpeptide · ascendcell
Sustain / Endure	Healthspan	Longevity without the word longevity	sustainprotocol · sustainamino
Hone	Precision	Strong verb — but Hone Health owns it in this exact category	(killed)
Rally	Comeback	Strong verb — three live supplement uses	(killed)
Shred / Cut / Burn / Torch	Fat loss	The grey-market and bro-supplement register; each is a claim on its face	(killed)

5 · Modifier words what each suffix signals to a regulator, a retailer and a customer

MODIFIER	COHORT	WHAT IT SIGNALS	OPEN PAIRINGS
Labs / Lab	Grey → neutral	Singular 'Lab' reads modern; plural 'Labs' is the single most common grey-market suffix	halolab
Research	Grey market	Signals research-use-only. Radioactive for a consumer brand	—
Chems / Chemical	Grey market	Explicitly non-consumable. Avoid entirely	—
Sciences	Grey market	Peptide Sciences made it the category's default; now reads like a shutdown	—
Supply / Source / Depot	Grey market	Distribution language; implies bulk, not brand	—
Bio	Neutral	Cheap, flexible, slightly generic	sharpenbio
Health	Compliant	The default suffix of the legal telehealth cohort	—
Rx	Compliant	Instantly signals prescription — an asset in the 503A lane, a liability on a supplement label	temperrx · rewindrx · criterionrx

MODIFIER	COHORT	WHAT IT SIGNALS	OPEN PAIRINGS
Clinic / Clinical	Compliant	Strong trust signal; only usable if you actually have clinicians	reclaimclinic · fidelisclinic
Medica / Meds	Compliant	Softer than Rx; check insurer trademarks (Medica)	peptidemedica · argentmedica
Method / Protocol	Consumer-clinical	'Protocol' is the most-used word in peptide consumer search; names a programme, not a drug	sustainprotocol · spanmethod
Formula	Supplement	The lawful-supplement word. Says blend, not molecule	reclaimformula · asterformula
Amino	Supplement	Legally the safest category noun on this list — amino acids are lawful supplement ingredients	restoreamino · upgradeamino
Vital / Vitality	Consumer	Warm, claim-free, ages well	tempervital · restorevital
Span	Longevity	Healthspan shorthand; insider-legible, mass-opaque	refinespan · criterionspan
Cell / Cyte / Mito	Mechanism	Cellular/mitochondrial framing; scientific without claiming	rebuildcell · cyteprime · mitoboost
Dose	Clinical	Precision signal; also the most grey-market-adjacent of the neutral words	restoredose
Club / Society / Collective	Membership	Subscription and community framing; the Pep Club move	—
Co / Company	Understated	Quietly premium; The Precision Peptide Company	—
Peptide / Peptides	Category	Carries a ~10M-search/mo category — and locks the brand to a molecule class you may not be able to sell as a supplement	(see Tier 2 & 4)

The single most useful finding in this table: Amino is the only category noun on the list that is unambiguously lawful on a supplement label. **Formula** and **Protocol** describe a blend or a programme rather than a molecule. **Peptide** carries the search volume and the legal exposure in equal measure — which is why it belongs on a product line, not necessarily on the master brand.

6 · The Top 100 every domain below was open .com at the last sweep

Ranked within four tiers rather than one list, because the right answer depends on which lane the business takes. A brand that wants both should buy one Tier 1 name as the house and one Tier 2 name as the storefront.

Tier 1 — Brandable master 30 names · no category lock · celebrity/DTC register

#	NAME	DOMAIN	CHARS	WHY IT IS ON THE LIST
1	Pep Vim	pepvim.com	6	Shortest clean find in the whole sweep. 'Pep' is a real English word for vigour — consumer signal without a peptide claim.
2	Pep Kai	pepkai.com	6	Two soft syllables, global-pronounceable. Nearest neighbour 'Pepti' is a different register.
3	Pep Zest	pepzest.com	7	Energy word; reads food-grade and cheerful, not clinical.
4	Pep Bold	pepbold.com	7	Attitude-forward — closest in tone to Talentless.
5	Pep Grit	pepgrit.com	7	Earned-effort register; strong for a training/recovery line.

#	NAME	DOMAIN	CHARS	WHY IT IS ON THE LIST
6	Pep Sharp	pepsharp.com	8	Cognitive lane (focus/nootropic) without a structure-function claim.
7	Pep Pure	peppure.com	7	Purity is the entire trust story in this category post-shutdowns.
8	Pep Vigor	pepvigor.com	8	Most explicit vitality word that is still trademarkable.
9	Pep Hale	pephale.com	7	'Hale' = healthy. Archaic enough to be ownable.
10	Pep Spry	pepspry.com	7	Ageing-well without saying anti-ageing. Rare clean 8.
11	Pep Calm	pepcalm.com	7	Sleep/stress SKU name; softest possible peptide adjacency.
12	Pep Ever	pepever.com	7	Longevity implied, never claimed.
13	Pep Flux	pepflux.com	7	Science-coded, no medical claim.
14	Pep Ryze	pepryze.com	7	Coined spelling = strongest trademark in Tier 1; costs a radio test.
15	Pep Thryv	pepthryv.com	8	Same trade-off as Ryze; 'thrive' is the most-used word in the category.
16	Pep Rest	peprest.com	7	Recovery SKU; clean and literal.
17	Pep Balm	pepbalm.com	7	Topical/skin line; bridges to beauty retail.
18	Pep Herb	pepherb.com	7	Botanical framing — the lane that is unambiguously lawful as a supplement.
19	Halo Vive	halovive.com	8	Two premium fragments, no category lock. Beauty-shelf ready.
20	Tone Viva	toneviva.com	8	Body-composition adjacency without a fat-loss claim.
21	Vive Age	viveage.com	7	Longevity register, warm not clinical.
22	Glow Evo	glowevo.com	7	Beauty-from-within, the largest adjacent category.
23	Bloom Gene	bloomgene.com	9	Science + growth; good for a women's line.
24	Calm Gene	calmgene.com	8	Sibling to Bloom Gene — a naming system, not one name.
25	Tone Gene	tonegene.com	8	Third sibling; the -gene set scales to a full range.
26	Cyte Prime	cyteprime.com	9	Cellular register; 'prime' is the most investor-legible modifier.
27	Vim Prime	vimprime.com	8	Vim = vigour. Pairs with Pep Vim if you want the house to own both.
28	Mito Boost	mitoboost.com	9	Mitochondrial energy — the most searched longevity mechanism.
29	Cyte Nova	cytenova.com	8	Clean, pharma-adjacent, no collisions found.
30	Halo Lab	halolab.com	7	Seven characters, singular 'Lab' reads modern not grey-market.

Tier 2 — Action + category 30 names · carries search intent · supplement-lawful pairings favoured

#	NAME	DOMAIN	CHARS	WHY IT IS ON THE LIST
31	Temper Peptide	temperpeptide.com	13	Metallurgy verb: to strengthen by controlled stress. Best action word nobody has used.
32	Temper Rx	temperrx.com	8	Rx sibling for the prescription lane.
33	Temper Vital	tempervital.com	11	Softer consumer sibling.
34	Sharpen Peptide	sharpenpeptide.com	14	Cognitive intent, keyword-bearing.
35	Sharpen Bio	sharpenbio.com	10	Shorter, no category lock.

#	NAME	DOMAIN	CHARS	WHY IT IS ON THE LIST
36	Refine Peptide	refinepeptide.com	13	Refinement, not reduction — deliberately avoids weight-loss claim language.
37	Tune Peptide	tunepeptide.com	11	Four-letter verb; the shortest action+category pair open.
38	Unlock Peptide	unlockpeptide.com	13	High-intent verb, strong ad copy.
39	Upgrade Peptide	upgradepeptide.com	14	Biohacker vernacular, mass-legible.
40	Upgrade Amino	upgradeamino.com	12	Amino = the lawful-supplement framing of the same idea.
41	Charge Peptide	chargepeptide.com	13	Energy lane.
42	Drive Peptide	drivepeptide.com	12	Men's performance lane.
43	Lift Peptide	liftpeptide.com	11	Training lane; short.
44	Climb Peptide	climbpeptide.com	12	Aspiration verb, no body-composition claim.
45	Ascend Cell	ascendcell.com	10	Cellular longevity framing.
46	Reclaim Amino	reclaimamino.com	12	Recovery/second-act story — strong for this founder's arc.
47	Reclaim Formula	reclaimformula.com	14	Formula reads supplement, not research chemical.
48	Restore Amino	restoreamino.com	12	Most-searched action verb in the category.
49	Restore Formula	restoreformula.com	14	Sibling.
50	Restore Vital	restorevital.com	12	Sibling.
51	Rebuild Amino	rebuildamino.com	12	Post-GLP-1 muscle-retention lane — the fastest-growing use case.
52	Rebuild Cell	rebuildcell.com	11	Cellular sibling.
53	Recover Amino	recoveramino.com	12	Clean, literal, lawful.
54	Renew Amino	renewamino.com	10	Softest of the re- verbs.
55	Rewind Peptides	rewindpeptides.com	14	Plural carries more commercial search intent.
56	Rewind Rx	rewindrx.com	8	Prescription sibling.
57	Sustain Protocol	sustainprotocol.com	15	'Protocol' is the single most-used word in peptide consumer search.
58	Sustain Amino	sustainamino.com	12	Consumer sibling.
59	Amplify Peptide	amplifypeptide.com	14	Loud, ad-friendly.
60	Anneal Peptide	annealpeptide.com	13	Strengthening-through-heat metaphor; unusually ownable.

Tier 3 — Clinical / compliant 20 names · for the prescription or clinical-grade lane

#	NAME	DOMAIN	CHARS	WHY IT IS ON THE LIST
61	Clinipeptides	clinipeptides.com	13	Still the single best clinical name found: says clinical + peptides in one word, empty SERP, open on .co/.io/.health.
62	Criterion Rx	criterionrx.com	11	Master-brand register; pairs with a peptide formulary line.
63	Criterion Amino	criterionamino.com	14	Supplement-lane sibling of the same house.
64	Criterion Span	criterionspan.com	13	Healthspan sibling.

#	NAME	DOMAIN	CHARS	WHY IT IS ON THE LIST
65	Peptide Medica	peptidemedica.com	13	Keyword-first; clear the Medica insurer adjacency before filing.
66	Pepti Medica	peptimedica.com	11	Shorter variant of the same idea.
67	Calibre Peptide	calibrepeptide.com	14	Precision register; British spelling is distinctive and ownable.
68	Accura Peptide	accurapeptide.com	13	Accuracy = the post-shutdown trust pitch.
69	Integra Peptide	integrapeptide.com	14	Integrity register; check Integra LifeSciences in Class 5.
70	Bastion Peptide	bastionpeptide.com	14	Protection metaphor; strong for a testing-forward brand.
71	Fidelis Clinic	fidelisclinic.com	13	Fidelity/trust; clinic reads compliant.
72	Fidelis Method	fidelismethod.com	13	Method = programme, not product.
73	Exemplar Rx	exemplarrx.com	10	Premium; clear Exemplar Pharma LLC first.
74	Exemplar Clinic	exemplarclinic.com	14	Service-lane sibling.
75	Argent Medica	argentmedica.com	12	Silver/premium register.
76	Aster Formula	asterformula.com	12	Botanical-clinical hybrid; supplement-lawful framing.
77	Proto Cellular	protocellular.com	13	Mechanism-forward, no claim.
78	Cyto Protocol	cytoprotocol.com	12	Protocol keyword with a scientific prefix.
79	Onda Protocol	ondaprotocol.com	12	Warmer protocol variant.
80	Span Method	spanmethod.com	10	Healthspan + method; no category noun at all.

Tier 4 — Lifestyle, place and natural 20 names · retail-shelf and beauty-adjacent register

#	NAME	DOMAIN	CHARS	WHY IT IS ON THE LIST
81	Oak Peptide	oakpeptide.com	10	Shortest trustworthy natural-word pair (10). Warm, zero collisions.
82	Rowan Peptide	rowanpeptide.com	12	Tree name, softer than Oak; clean.
83	Willow Peptide	willowpeptide.com	13	Women's-line register.
84	Cedar Peptide	cedarpeptide.com	12	Warm wood set — sibling naming works across the range.
85	Spruce Peptide	sprucepeptide.com	13	'Spruce up' doubles as an action word.
86	Timber Peptide	timberpeptide.com	13	Masculine end of the wood set.
87	Meadow Peptide	meadowpeptide.com	13	Softest natural word open; no supplement collision found.
88	Harbor Peptide	harborpeptide.com	13	Safety metaphor — useful in a category fighting a trust problem.
89	Canyon Peptide	canyonpeptide.com	13	Outdoor-performance register.
90	Indigo Peptide	indigopeptide.com	13	Colour names index premium in beauty retail.
91	Quartz Peptide	quartzpeptide.com	13	Mineral set; clean, precise.
92	Slate Peptide	slatepeptide.com	12	Minimal, fashion-adjacent.
93	Granite Peptide	granitepeptide.com	14	Strength metaphor.
94	Zephyr Peptide	zephyrpeptide.com	13	Lightness; distinctive first syllable.
95	Heron Peptide	heronpeptide.com	12	Bird set — calm, premium, unusual.

#	NAME	DOMAIN	CHARS	WHY IT IS ON THE LIST
96	Kindred Peptide	kindredpeptide.com	14	Community framing; strong for creator commerce.
97	Lucent Peptide	lucentpeptide.com	13	Clarity/transparency — no health-sector collision found.
98	Marque Peptide	marquepeptide.com	13	Luxury-goods word; fashion crossover.
99	Onda Peptide	ondapeptide.com	11	'Wave' in Italian/Spanish; no supplement collision found.
100	Montauk Peptide	montaukpeptide.com	14	Place-luxury without Los Angeles celebrity baggage.

7 · Screened out, and why so these are not revisited

NAME / FAMILY	COLLISION OR PROBLEM	VERDICT
Orenda (+ peptide/amino)	Orenda International, Orenda Botanicals and Orenda Wellbeing are all live supplement/wellness brands	Direct Class 5 collision
Lyra (+ any health word)	Lyra Health — \$915M raised, 20M+ people covered	Would be buried in search and challenged on filing
Rally Peptide / Rally Formula	Rally hangover supplement; LTH Rally Amino Recovery (Life Time)	Two live supplement uses of the exact word
Aspen Peptide	Aspen Nutrition sells supplements under the name	Same class, same shelf
Hone Peptide / Hone Rx	Hone Health — 647K visits/mo, already sells sermorelin	The single worst collision available in this category
Kaya Peptide	Kaya Limited — established skincare specialist	Class 3 adjacency into Class 5
Kindle Peptide	Amazon Kindle	Opposition risk out of proportion to the name's value
Shred / Cut / Burn / Ripped / Swole / Jacked / Grind / Hustle + peptide	No trademark problem — a positioning problem	A celebrity-fronted brand with a fat-loss verb in the domain is the QuickTrim class action rebuilt. Kardashian-fronted QuickTrim settled false-advertising claims for \$5M.
The entire 'Lord' round (79 open combos)	lordpeptide / peptidelord / aminolords / lordofamino	Retired by this brief: 'Lord' is the founder's own nickname. Cannot be non-eponymous.
Peptovi	Peptivo — live Rx peptide telehealth, one letter away	Google will autocorrect you into your competitor
Peptura / Peptorra / Peptidyne	.com registered since the August sweep	Gone
Suprema / Ultima / Maxima / Imperial / Regal + peptide	Superlative styling is the house style of grey-market vendors	Reads research-chem storefront

8 · Method and limits

read before spending money

How availability was established. 17,026 candidate domains were resolved at DNS in the 2 September 2026 sweep; NXDOMAIN was treated as an open lead. 4,751 came back open on .com. This session could not re-resolve them — outbound DNS, RDAP and WHOIS are blocked by the network policy in this environment — so **every domain in this document carries a 2 September date and must be re-checked at a registrar before you rely on it.** Three names from the August sweep (peptura, peptorra, peptidyne) were registered by others between sweeps, so the drift is real: assume a few percent of the list has moved.

What this document is not. It is a naming and collision screen, not legal clearance. Before committing to any name: run a USPTO knockout search in Class 5 (supplements) and Class 44 (telehealth), check the social handles, and have counsel confirm which of the three lanes above the product actually sits in. The collision notes here come from web search on 18 September 2026 and catch live brands, not pending applications.

ROUND / SEGMENT	OPEN .COM	CHECKED
